[in LinkedIn](#) | [+55 \(51\) 99463-8306](#) | [diegocarmona.me](#) | [diegoncarmona@gmail.com](#) | [GitHub](#)

Summary

Full Stack Developer experienced in building production-ready web applications using React, Next.js, TypeScript, and Node.js, including AI (LLMs) integrations, authentication (OAuth), and relational databases. Works across the entire stack, developing modern, high-performance frontends as well as scalable and well-structured backends. Portfolio featuring real-world applications with strong performance metrics (Lighthouse 99/100 and Real Experience Score 100), with a strong focus on accessibility, SEO, and user experience.

Skills

- **Frontend:** TypeScript | React | Next.js | JavaScript (ES6+) | Tailwind CSS | TanStack Query | Framer Motion | HTML | CSS
- **Backend:** Node.js | REST API Design | Authentication (Auth.js, OAuth) | Prisma | PostgreSQL
- **Practices & Tools:** Git | GitHub | ESLint | Accessibility (ARIA) | Web Performance | Figma
- **Additional Expertise:** AI (LLM) Integrations | Progressive Web Apps (PWA) | SEO | Responsive Design

Projects

CineAI - AI-Powered Movie Discovery Platform (2025)

[Github](#) | [Website](#)

Next.js, React, TypeScript, Tailwind, Prisma, PostgreSQL, Auth.js, Groq/LLaMA, Node.js

- Integrated **LLMs (Groq/LLaMA)** with the TMDB API to deliver personalized movie recommendations based on user profile and mood, featuring **Google OAuth** authentication and relational database persistence.
- Architected with Next.js App Router and **serverless APIs**, including a full favorites and watchlist system with persistent database storage and user-based data isolation.

Pitada - AI Recipe Generator (2025)

[Github](#) | [Website](#)

Next.js, React, TypeScript, Tailwind CSS, TanStack Query, Groq/LLaMA, PWA

- Built a web application that generates **AI-powered** recipes from user-provided ingredients, delivered as an **installable PWA**.
- Async state management with TanStack Query and accessible interface (ARIA, keyboard navigation, semantic HTML).

Personal Portfolio (2026)

[Github](#) | [Website](#)

Next.js, React, TypeScript, Tailwind CSS, Framer Motion, Three.js

- Built a production-grade portfolio focused on performance, accessibility and technical SEO — achieving **Lighthouse 99/100/100** and **Real Experience Score 100** (Vercel Speed Insights).
- Full **SEO architecture** with JSON-LD, dynamic sitemap and Open Graph, indexed by Google with initial organic traffic.

Experience

IT Intern

11/2021 - 07/2023

SEAD (UFRGS)

Porto Alegre, Brazil

- Provided incident resolution and technical support for over 80 workstations, ensuring high infrastructure availability across four computer labs and administrative departments.
- Managed user permissions and access policies in Windows and Active Directory environments, following established security and access control procedures.
- Supported the technical operations of academic events with more than 100 attendees, maintaining stable real-time broadcasts in high-pressure environments.

Education & Courses

Associate Degree in **Systems Analysis and Development**

08/2024 - 12/2026

Uniassevi - Expected Graduation: December 2026

Porto Alegre, Brazil

Practical focus on software engineering and systems architecture.

Bachelor's Degree in **Computer Science** (On Hold - 5 Semesters Completed)

Federal University of Rio Grande do Sul (UFRGS)

Strong foundation in algorithms, data structures, and applied mathematics.

- **Intermediate React v6** - Frontend Masters (2025)
- **English Course** - CCAA | Post-Advanced Level (2015)

Languages

- **Portuguese:** Native.
- **English:** Fluent.
